

We are Allegion™

For over a century, we have kept people safe and secure. Our brands have been innovators for almost as long as people have locked doors. Their entrepreneurial spirit is at the core of who we are.

AD SYSTEMS
HIGH PERFORMANCE DOORS

Since the first product rollout in 2009, the team at AD Systems has been supplying high performance sliding door and interior storefront systems for major healthcare and commercial projects across North America.

Originating in 1967, Advantage Lites & Louvers produces quality door louvres and vision lights for a variety of institutional and commercial applications.

A photograph of a sliding barn door in a room, with the word 'Brio' overlaid in white text. The image is tinted with a warm orange color. The barn door is partially open, revealing a room with a desk and chair. The text 'Brio' is centered on the left side of the image.

Brio®

Brio® is a solutions company for the sliding and folding door industry which offers a range of architectural door hardware from tracks and hardware to insect screening for interior, exterior, residential or commercial spaces.

FALCON[®]

Falcon[®] delivers durability, convenience and unmatched value. Falcon products include locks, cylinders, key systems, exit devices, closers and accessories.

The image features a vertical orange bar on the left side. The background of the entire image is a close-up, slightly angled view of overhead door hardware, including tracks and rollers, with a wood-grain texture visible in the lower portion. The company name 'GLYNN-JOHNSON' is printed in white, bold, sans-serif capital letters across the middle of the orange bar, with a registered trademark symbol (®) at the end.

GLYNN-JOHNSON®

Glynn-Johnson® delivers superior quality overhead door holders and stops in a wide variety of popular finishes and configurations providing the flexibility needed to meet the most demanding door control applications.

The image features a solid orange background. On the left side, there is a semi-transparent overlay of various door hardware components, including hinges, pulls, and bolts. The word "IVES" is printed in a large, bold, white, sans-serif font across the middle of the image. A small registered trademark symbol (®) is located to the right of the letter "S".

IVES®

For more than 120 years Ives® has produced a full line of premium hinges, pivots, flush bolts, strikes, door trim, pulls, protection plates, lock guards and many other hardware accessories.

LCN®

Since 1876 LCN® has been the undisputed innovator and leader in door control. LCN products include surface and concealed door closers, ADA-compliant automatic door operators, and electronic accessories.

Republic

Republic Doors and Frames has a long history as one of the nation's leading manufacturers of commercial steel doors and frames, offering specialty solutions such as bullet resistance options and acoustical doors and frames.

The image shows a close-up of a door with a Schlage lock and handle. The Schlage logo is overlaid on the door. The background is a blurred office interior with a desk and chair.

SCHLAGE

For more than 90 years, Schlage® has been creating the strongest and most technologically advanced security products for homes, multi-family, commercial and institutional buildings.

A photograph of a hallway with a steel door, overlaid with an orange gradient. The hallway leads to another room with a white door and two framed pictures on the wall. The floor is made of light-colored wood.

STEELCRAFT®

Steelcraft® provides an impressive selection of steel doors and frames for virtually any wall condition or entryway requirements.

The logo for Technical Glass Products (TGP) is displayed in white, bold, sans-serif capital letters. It is centered on a vertical orange band that features a complex, repeating geometric pattern of interconnected lines forming a mesh of triangles and polygons. The background of the entire slide is white.

TGP

Technical Glass Products (TGP) is the recognized leader in the fire-rated glass and framing industry. Their Fireframes® family of steel, aluminum and wood framing systems and entrance solutions maximize glass and transparency.

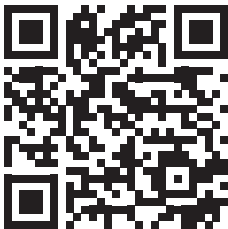

VON DUPRIN®

Since pioneering the first exit device in 1908, Von Duprin® life safety products have provided unparalleled quality, performance and flexibility for schools, hospitals, stadiums and public buildings.

Zero International products are category leaders in sound control, fire and smoke protection, and threshold applications.
