

Important – Read This First

- Always refer to manufacturer instructions, this drawing is a recommendation and site characteristics vary.
- When utilizing 12vdc from a PoE powered RC-04 verify power calculation to ensure enough power is available for all devices.
- Some adjustment of the timing will be necessary by adjusting the potentiometers, installing the device at default values will result in errors.
- Read and follow instructions for separate power supply that is specific to the electrified panic bar
