CLOSING IN ON
A NEW WEBSITE

Introducing the *ALL NEW* LCNClosers.com!

Since inventing the world's first door check in 1877, LCN has been Taking Control™ of the industry with a combination of precision, performance, and trust. That includes helpful resources like our new website, which complements LCN's commitment to meticulous engineering and quality control.
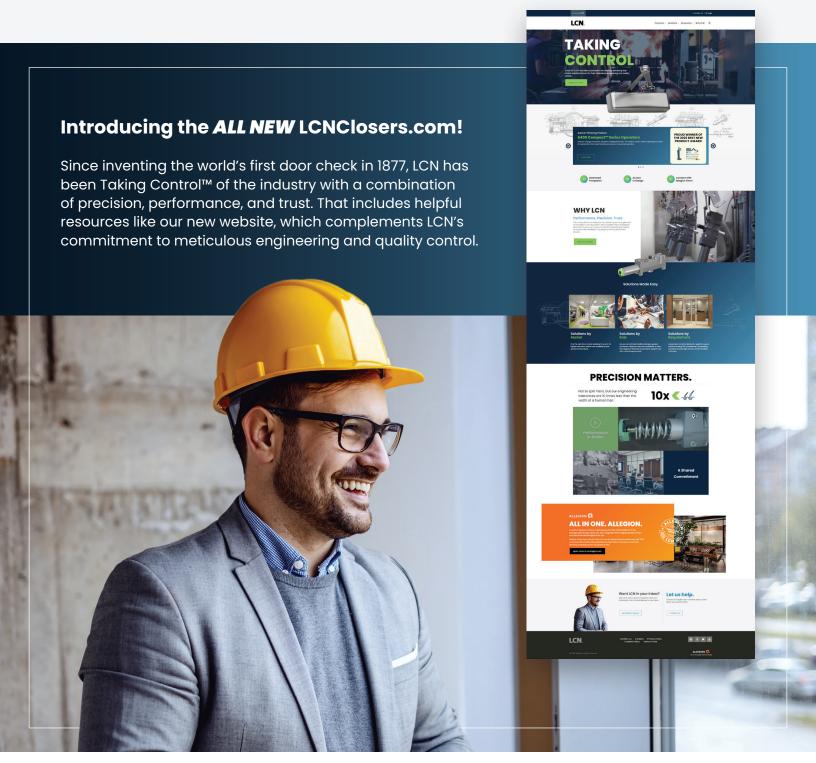

Explore the new site and experience the following features and benefits:

- Intuitive flow of information and navigation pathways enhance product selection

- Bold use of imagery and product visuals help guide the user experience

- Highlighted "Related Products" on product pages to point users toward a complete system solution

- Improved resource categories for ease of use including Installation & Setup, Troubleshooting & Maintenance and Training & Education content hubs that incorporate helpful videos and content addressing frequently asked questions

- Dedicated, solution-based content addressing:

  - Specific market needs for K-12, Health Care, Higher Education, Multifamily and Government

  - Targeted resources for Architects, Facility Managers, Locksmiths, Security Consultants, Security Integrators and more at your fingertips

  - Key security needs and requirements topics such as ADA/Accessibility, Touchless Access, Security, Fire & Life Safety, High Security and more

  - Application needs per unique market and requirement settings

- An Allegion Services Hub, which provides you with the ability to easily access the world-class support you expect from Allegion

- A quick and easy connection to get in touch with an Allegion team member, who will guide you through a customized solution for your project

When it comes to door control solutions, precision matters. This exactness opens the door to more consistent performance, saving you time and money.
