Who should update?

Allegion recommends keeping all devices at your site up to date with the latest firmware and software. We strive to provide the best products and service for our customers and security upgrades are highly recommended.

Our latest firmware and software releases will allow the customer to get the most from their devices.

Specifically, all customers who would be interested in the following New Features and Recent Changes should update their devices.

New Features:

- Access Control Software can now poll Door Status information:
 - Lock State: Locked/Unlocked
 - Door Position: Open/Closed/Unknown(if DPS not configured)
 - Device State: Schedule vs. Override vs. Standard Credential
 - Door Status is now reported when the device connects to Access Control Software
 - Enrollment Reader Functionality
 - Schlage RC may now be used as an enrollment reader
- NOTE:** This feature requires Device firmware version A.07 or later
- “nextDBverTS” Tag implemented
 - This tag is used by Access Control Software to determine if the device has the latest database update

Recent Changes:

- Improved reconnect functionality and scenarios where a disconnect might have occurred
- Fixed an issue where an Extended Schedule could be set with a longer than intended time (Max Time: 23:59 HH:MM)
- Fixed an issue where the “Incremental Database User Update Count” audit was being generated more often than intended
- Default Door Prop delay should now be correctly configured to 30 seconds after commissioning

- Amber and Blue LEDs may now be controlled by the Access Control Software
- Beeper will no longer beep when sent an incorrect value
- Improved Compile performance
