

HPD UNIQUE IDENTIFIER: 1426880512

CLASSIFICATION: 08 71 00 Door Hardware

**PRODUCT DESCRIPTION:** Von Duprin Electric Power Transfer (EPT) provides a means of transferring electric power from a door frame to the edge of a swinging door by providing a wiring path from the door to the frame. This allows products on or around the door to receive power as well as monitoring door status. The unit is completely concealed when the door is in the closed position and ideally suited for installations with heavy traffic. There are two models to meet the needs of any opening, with either two-wire (EPT-2) or ten-wire (EPT-10) harnesses, and both can be ordered with quick connect fittings. EPT-2 has two 18-gauge wires and EPT-10 has 10 24-gauge wires. Both are available in finishes 689 and 695.

## Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.3, available on the HPDC website at: [www.hpd-collaborative.org/hpd-2-3-standard](http://www.hpd-collaborative.org/hpd-2-3-standard)

### VON DUPRIN ELECTRIC POWER TRANSFER

PRODUCT THRESHOLD: 1000 ppm

RESIDUALS AND IMPURITIES EVALUATION COMPLETED: Yes

RESIDUALS AND IMPURITIES NOTES: Residuals and impurities were collected for all raw materials included in this product. All chemicals that fall above the stated threshold are included in this section.
