

Another year of innovation

With a comprehensive portfolio of door hardware solutions, Allegion is constantly looking for ways to make products more stylish, functional, attractive and secure. This past year, we did just that through a number of solutions across our family of brands.

Schlage®

Schlage Control™ Smart Locks

With a sleek look, modern convenience and strong security, the new [Schlage Control Smart Locks](#) are ideal for multi-family properties. The locks are available in Schlage's popular Greenwich and Addison trim styles and in the Satin Nickel, Aged Bronze, Satin Chrome and Bright Chrome finishes. With so many options, you'll be able to easily suite with other hardware and enhance the overall styling of a building or property.

Schlage Everest 29™ Series

Earlier this year, the Everest 29 SL was named [2016 New Product Showcase Winner](#) during the ALOA Convention and Security Expo.

Schlage Electrified ND

The [Schlage Electrified ND Grade 1 cylindrical lock](#) has been completely redesigned to offer superior energy efficiency and flexibility in wired electrified applications. The electrified ND is ideal for both perimeter and interior security in high-traffic, high-use areas.

Schlage Sense Smart Deadbolt™

The [Schlage Sense Smart Deadbolt](#), a Bluetooth™-enabled residential lock, took keyless security to the next level. The lock is one of the first products to work with Apple HomeKit™ technology—which allows you to “talk to unlock” your door using Siri® on your iPhone®, iPad® or iPod touch®. Additionally, the lock offers a number of advanced features, all of which can be accessed via the Schlage Sense app.

ELEVATE Design Collective

This year, Schlage came together with other home accent brands to form the [ELEVATE Design Collective](#). This first-of-its-kind alliance helps architects, interior designers and remodelers create a more cohesive and unique design throughout the entire home.

Steelcraft®

Thermal break frames

Steelcraft is now offering three-sided [thermal break frames](#) to provide a lower U-factor, lower energy costs and increased comfort for occupants. These frames are helping benefit a variety of building projects.

LCN®

Cast Aluminum Closers

[LCN 1250 Series: Light duty](#)

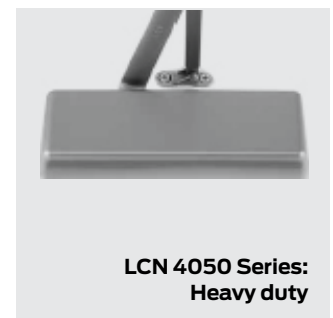

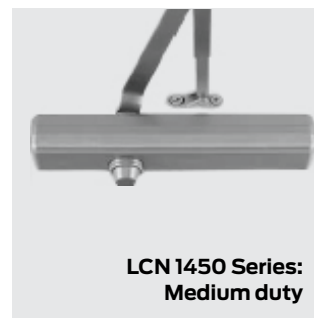

- Designed for low-frequency and low-abusive traffic areas
- Ideal for aluminum storefronts and interior offices
- Perfect choice for aftermarket replacement
- For aluminum, hollow metal or wood swinging doors and frames
- Can be used with hinge- or pivot-mounted doors
- Mounts on a 1 3/4" transom without adapter plates
- Adapter plates and other installation accessories available for unusual conditions

[LCN 1450 Series: Medium duty](#)

- Designed for frequent use in low-abusive traffic areas
- Excellent choice for aftermarket replacements, aluminum storefronts and new construction
- For aluminum, hollow metal or wood swinging doors and frames
- Can be used with hinge- or pivot-mounted doors
- Mounts on a 1 3/4" transom without adapter plates
- Adapter plates and other installation accessories available for unusual conditions
- A heavy duty option will be available later this year

[LCN 4050 Series: Heavy duty](#)

- Designed for high-frequency and highly-abusive traffic areas
- Ideal for commercial building applications and competitive specification situations
- For aluminum, hollow metal, or wood swinging doors and frames
- Can be used with hinge- or pivot-mounted door
- Adapter plates and other installation accessories available for unusual conditions
- Optional SRI primer for installations in corrosive conditions is available with powder coat only
- The 4010 Series is UL and cUL listed with regular or fusible link arms for self-closing doors
- Tested and certified under ANSI Standard A156.4, Grade 1

Von Duprin®

Von Duprin fire-rated 33A/35A

Von Duprin now offers the 33A-F and 35A-F fire-rated narrow stile rim devices. Visit us [online](#) or download our [catalog](#) for more information.

Updated BHMA Grade 1 exit devices

Von Duprin now has [exit devices](#) that are certified to the latest standard: ANSI/BHMA A156.3-2014. This certification includes a 20-lb preload requirement for Grade 1 devices for each of the 500,000 testing cycles.

Concealed vertical cable system

The revolutionary patent-pending [concealed vertical cable \(CVC\) system](#) uses proven cable technology in a whole new way. Our cables are field sizeable and allow for variances in centerline height. Designed for use with Von Duprin 98/99 and 33A/35A Series exit devices, it provides greater security for the opening, with the streamlined aesthetics that architects and customers prefer.

ALLEGION™

Falcon®

Falcon introduced a [new line of levers](#) designed to suite across the Schlage and Falcon lines for multi-family properties.

Allegion

EPDs

Allegion now has [EPD information](#) on many of our brands, including Schlage, LCN, Von Duprin, Ives and Steelcraft. An EPD provides quantifiable environmental details on a product's impact on the environment. Verified by an independent third party, EPDs include information on raw material acquisition, energy use and efficiency, materials and chemical content, emissions to air, soil and water, and waste generation. [Get Allegion EPDs](#)

Spec Exchange

Spec Exchange

Allegion added the Superdoor module to their Spec Exchange Revit plug-in. With the SuperDoor Configurator, architects can quickly configure generic doors and door families right inside their Revit designs. Together, [SuperDoor and our Spec Exchange file transfer plug-in](#) are helping architects simplify, streamline and standardize door scheduling so that they can focus on what they do best—designing productive spaces.

iDigHardware

Lori Greene, DAHC/CDC, CCPR, FDAI, FDHI, celebrated the 7th anniversary of [idighardware.com](#). She wanted to give architects, security consultants, locksmiths, distributors, end users and code officials an easy way to find answers to their code questions. She had no idea when she launched the site that it would become the valuable resource it is today across the entire door and hardware industry. Since its inception, idighardware has had:

- 1 million visits
- 2 million page views
- 500,000 visitors
- 1,500 published posts
- 10,000 comments
