

Manufacturing Day 2020: A virtual field trip experience

Each year in October, Allegion participates in National Manufacturing Month – inviting students from across the U.S. into our production facilities to see how safety and security products are made. In 2020, while prioritizing the health and safety of our employees and participants, we created virtual field trip experiences – which are now available to you and your students online.

What students will learn

By participating in the 2020 Manufacturing Day virtual field trips, students will have the opportunity to see modern manufacturing in action. They'll learn about:

- New and different manufacturing technologies
- Roles in the field
- Skills needed to succeed in manufacturing jobs of the future
- Testimonials of manufacturing employees on why they chose careers in the field and why these jobs are fulfilling
- The importance of STEM education for many manufacturing jobs

Content overview

Allegion's Manufacturing Day videos provide a one-hour virtual field trip into the world of manufacturing. There are three 10-20-minute videos on manufacturing, jobs, and the future of the industry. Combined with the 20-minute discussion guide, this content can give students a good overview of the possibilities in this field. For students who want to learn more, we have included links in the discussion guide to eight virtual tours of Allegion factories located around the United States.

- **Virtual Plant Tour:** [Allegion's U.S. Manufacturing Footprint](#) (~10 minutes)
- **Employee Voices:** [The Future of Manufacturing](#) (~10 minutes)
- **Employee Panel Discussion:** [U.S. Manufacturing Career Experiences](#) (~20 minutes)
- **Discussion Guide:** Document with [questions and answers](#) to help teacher's lead a discussion on careers in manufacturing.

How to access or share

In addition to the links listed above and in the discussion guide, all events are now available on the [Allegion plc YouTube channel](#) as a part of the [2020 MFG Day Virtual Field Trips playlist](#). No matter where your students are currently learning – at home or in the classroom – these videos are publicly available and can be accessed with the click of a mouse.

About Allegion

Allegion (NYSE: ALLE) is a global pioneer in seamless access, with leading brands like CISA®, Interflex®, LCN®, Schlage®, SimonsVoss® and Von Duprin®. Focusing on security around the door and adjacent areas, Allegion secures people and assets with a range of solutions for homes, businesses, schools and institutions. Allegion had \$2.9 billion in revenue in 2019 and sells products in almost 130 countries. For more, visit www.allegion.com.

Allegion U.S. is your school security expert.

At Allegion, the issue of school security is more than a product conversation. We work with a variety of industry experts on best practices for keeping students, teachers, staff and visitors safe and secure.

Allegion is a corporate partner with [PASS \(Partner Alliance for Safer Schools\)](#). PASS provides guidelines and a checklist to help schools evaluate their current security level and prioritize upgrades. PASS is a recommended resource on the [SchoolSafety.gov](#) website.

For more resources and information on school security, or to watch recent webinars on the impacts of COVID-19 on emergency drills and access control or on balancing security and safety in a post-pandemic world, visit [us.allegion.com/school security](https://us.allegion.com/school-security).
