

ALLEGION™

Creating safe & secure learning environments

Schools

The Allegion Education Solutions team brings more than 100 years of knowledge and experience to bear on helping you identify your security needs and developing a plan to meet them. Our comprehensive approach to planning reinforces the recommendations laid out by the United States Department of Education, and can show you simple steps you can take right now, while laying the groundwork for where you want to be tomorrow.

What we deliver

- Tough, dependable and practical products for every application
- Cost-effective solutions with excellent lifecycle cost of ownership
- Trusted partnership focused on selecting the right solution today, while planning for an easy migration to future technology when you're ready

One-Card Alliance partners:

Our team will be with you from planning to implementation

Our sales and technology consultants and specification writers offer service and support to ensure you have optimal solutions for every door opening and access control requirement, including:

- Specification and building standards assistance
- Grant funding information
- Application and technology expertise
- Online security and safety self-assessment
- Support and tools for crisis management
- One-Card Alliance network

A long-standing reputation for quality products and innovation

Our products are used at thousands of campuses across the country because our customers know they can depend on every Allegion product they use to be secure and longlasting. Our products are easy to specify and require little maintenance.

Whether it's working with a school board, a security team or a multi-campus IT department, our team of experts can help you implement solutions that do more than just lock doors.

Allegion offers quality, security solutions including:

Von Duprin exit devices

LCN door closers and auto operators

Steelcraft doors and frames

Ives door accessories

aptiQ readers and credentials

CO-220
Lock down a classroom in seconds with the push of a button on a remote fob

Visual indicators
Assess an opening— from a distance—to determine if it is locked

Our exclusive classroom function ensures secure lockdown by providing easy egress from the inside, while also preventing access from the outside without a credential.

Turn to our team of education specialists to find out more about:

Lockdown solutions

Implement a lockdown solution that includes electronic and mechanical security

Key systems and credential management

Smoothly migrate your current credentials to new locks

One-Card integration

Seamlessly integrate electronic locking solutions—including aptiQ smart card—with existing One-Card solutions from market-leading providers

LEED certification

Select products that meet your security needs and satisfying LEED standards

ADA, fire and life safety, and hurricane-rated products

Design an effective physical security solution that meets fire and life safety, as well as ADA, state and local codes

Allegion offers complete opening solutions by market-leading brands including Schlage®, Von Duprin® and LCN®. Our access control solutions include doors, frames, door hardware, credentials, as well as wireless, web-based access control. In addition, we offer credential management, seamless integration with many software platforms, a national consultant network, product support, grant funding information, and support and tools for crisis management.
