Overview

Dexter Commercial Hardware® provides you with affordable product solutions for locks, exits and closers for price sensitive projects.

Value priced deadbolt options to suit your needs

The new, grade 2 drive-in deadbolt is the latest in the Dexter line of quality products offered at a competitive price point. It provides “one-box” flexibility on the job, featuring an adjustable universal latchbolt backset length and both drive-in style collar for metal door applications and square corner faceplate for wood doors. Like all Dexter deadbolts, they come standard with keyed different, 6-pin cylinders in the Schlage C keyway. A drive-in latchbolt conversion kit is also available for use on any DB1000 Series deadbolt.

Shared features

- UL listed for use as auxiliary locks on 3-hour fire doors
- Universal latch adjusts from 2 3/8" to 2 3/4" backset
- Tapered front resists wrenching
- 1" throw stainless steel 5/8" x 3/4" deadbolt
- 1 1/8" - 1 3/4" standard cylinder door range
- 1 5/8" - 2" SFIC door range
- Conventional 6-pin cylinder in Schlage C keyway (standard) with less SFIC cylinder option
- 1 1/8" x 2 3/4" lipless strike
- ADA compliant thumb turn on single cylinder models
- 5-year limited warranty

Grade 1
+ Meets or exceeds 1 million cycle testing
+ integrated anti-pry shield for added security and quicker installation

Grade 2
+ Meets or exceeds 400,000 cycle testing
+ Removable anti-pry shield
+ Grade 2 drive-in includes drive-in style collar and standard faceplate
