Schlage Control™ LE, NDE and CTE solutions

featuring ENGAGE™ web and mobile applications
Connect and control more doors.
A whole lot easier than ever before.
Security has always been at the heart of all our products.

Today we can deliver so much more.

Walter Schlage invented the cylindrical lock in 1920; since then Schlage has consistently delivered innovation and continuous improvement. Now, we’ve added the latest technology to our world-class mechanical locks to deliver a new level of efficiency and convenience for your facility.

By adding built-in intelligence and communication technology Schlage Control,™ LE, and NDE wireless locks and CTE controller can help your staff:

- Increase productivity by managing locks/devices and electronic credentials from virtually anywhere
- Save time by eliminating the need to visit locks/devices to make changes
- Review and export lock/device usage and history for detection and diagnostics
- Reduce risks associated with lost or stolen keys

So if you are looking for an affordable way to improve security while reducing operational costs, open the door to Schlage electronic solutions.
Bring the added benefits of electronic solutions to any door.

- Reduce the time and costs associated with managing keys due to frequent turnover
- Enhance security with more visibility and control
- Increase efficiency by enabling updates to occur from virtually anywhere
We offer a variety of options for interior and perimeter openings.

Mitigate risks associated with lost or stolen keys, provides a detailed audit of events

Increase satisfaction by enabling convenient card access to shared spaces

Integrates seamlessly into existing EAC systems

1 Requires alliance member software; consult your Allegion rep for more information.
Designed to work together in commercial, institutional and multi-family properties.

ENGAGE™ cloud-based web and mobile apps

It has never been easier to take the first step from mechanical keys to electronic credentials. ENGAGE cloud-based web and mobile apps simplify site set-up and enable lock and user management from virtually anywhere.

Flexible ENGAGE solutions deliver a whole new level of ROI:

- Mitigate risks by providing more visibility and control to each opening
- Improve productivity by setting automatic lock and unlock schedules to common areas
- Improve efficiency by having the ability to remotely add and delete users from anywhere
- Improve satisfaction by issuing one credential that can be used for multiple applications including resident entry, common areas and amenities

For solutions requiring real time updates please contact Allegion at 877.671.7011 or visit us.allegion.com/alliances
