6300 Series
Use with most rim exit devices as a no-cut solution for storefronts and other challenging applications.

Ideal for rim exit retrofits
- No-cut surface mount design
- 12 & 24 VDC prewired connectors
- BHMA 630 / US32D stainless steel, satin finish

6400 Series
Configurable deadbolt keeper and dead latch ramp aligns with a wide array of locks with offset latches.

The ultimate mortise solution
- Modular options fit cylindrical and nearly any mortise lock
- Includes offset and centerline faceplates
- 12 & 24 VDC prewired connectors
- BHMA 630 / US32D stainless steel, satin finish

www.allegion.com/us

4200 Series
Designed for commercial traffic control.

4 in-field configurations
- Shallow 1 ¾” backbox depth
- Optional latch bolt monitoring
- Fail-safe conversion without disassembly
- Low current draw
- BHMA 630 / US32D stainless steel, satin finish

5100 Series
Use as an interior or exterior medium-duty traffic control solution.

12 in-field configurations
- Extremely versatile for field conversions
- Adjustable keeper improves fit on tight door preps
- Faceplates and hardware included for an all-in-one boxed solution
- Orderable in 3 finishes

Powerful solutions
Allegion offers a full line of complementary products for electric strikes, providing all you need to complete your next access control installation.

**4200 Series**
Cylindrical lock and deadlatch applications

- Hollow metal or Aluminum
- Cylindrical lock and deadlatch applications
- Single door
- Throw: 4211-1/2" to 3/4" - 4212-1/2" to 5/8"
- Field selectable voltage
- 12 VDC continuous duty at 0.20 A
- 24 VDC continuous duty at 0.10 A
- 4212 latchbolt monitor rating: 30 VDC at 0.20 A
- Dual voltage internal solenoid
- Latchbolt monitor switch (4212 only)
- Field selectable fail-safe/fail-secure without disassembly
- Stainless steel faceplate
- 1000 lbs. static strength
- 70 ft-lbs. dynamic strength
- 500,000 cycles endurance
- Meets ANSI/BHMA A156.1 Grade 1 endurance & dynamic strength
- Meets ANSI/BHMA A156.31 Grade 2 static strength
- S012 12 VAC to 12 VDC voltage converter kit
- S024 24 VAC to 24 VDC voltage converter kit
- EB Entry buzzer - available for fail-secure use only

*Includes mounting tabs, fail secure conversion hex key, wood and machine screws, plus a suppressing diode.

**5100 Series**
Cylindrical lock and deadlatch applications

- Hollow metal, Wood or Aluminum
- Cylindrical lock and most aluminum narrow stile and deadlatch applications
- Single door
- Throw: 1/2" to 5/8"
- Field selectable voltage
- 12 VDC continuous duty at 0.38 A
- 24 VDC continuous duty at 0.19 A
- Horizontally adjustable keeper improves fit on tight door press
- Dual-voltage internal solenoid
- 3 faciasets: 1 each for hollow metal, wood and aluminum frames
- Field selectable fail-safe/fail-secure
- 1300 lbs. static strength
- 70 ft-lbs. dynamic / tamper-resistant design
- 1,000,000 cycles endurance
- Meets ANSI/BHMA A156.1 Grade 1 endurance & dynamic strength
- Meets ANSI/BHMA A156.31 Grade 2 static strength
- BHMA 689/US SP28 Aluminum
- BHMA 622/US19 Flat Black
- BHMA 695/US SP313 Dark Brown
- S012 12 VAC to 12 VDC voltage converter kit
- S024 24 VAC to 24 VDC voltage converter kit

*Includes mounting tabs and shims, self-adhesive neoprene filler for repositions, machine and wood screws plus wire nuts.

**6300 Series**
Von Duprin, Falcon and most rim exit device applications

- Hollow metal, Wood or Aluminum
- Most rim exit device applications
- Single door or pair with mullion
- Throw up to 3/4"
- Field selectable voltage
- 12 VDC continuous duty at 0.50 A
- 24 VDC continuous duty at 0.24 A
- UL 10C 3-hour fire-rated (fail secure only)
- Dual-voltage internal solenoid
- No cut strike solution
- Heavy-duty stainless steel construction
- 1500 lbs. static strength
- 70 ft-lbs. dynamic / tamper-resistant design
- 2,000,000 cycles endurance
- Meets ANSI/BHMA A156.31 Grade 1 endurance, static & dynamic strength
- UL 1034C burglary listing
- S012 12 VAC to 12 VDC voltage converter kit
- S024 24 VAC to 24 VDC voltage converter kit
- EB Entry buzzer

*Includes two plug-in voltage connectors, mounting template, spacer plate, mounting screws, and hex wrench.

**6400 Series**
Mortise, mortise exit and cylindrical applications

- Hollow metal, Wood or Aluminum
- Mortise, mortise exit & cylindrical applications
- Single door
- Throw up to 3/4" latch and 1" deadbolt (as night latch only, no release)
- Field selectable voltage
- 12 VDC continuous duty at 0.375 A
- 24 VDC continuous duty at 0.19 A
- 12/24 VAC intermittent duty at 0.80 to 0.565 A
- 3-hour fire-rated to UL 10C (fail secure only)
- Dual-voltage internal solenoid
- 3 modular components: deadbolt keeper, plug and deadbolt ramp insert. Each lock in place anywhere within 3/8" vertical opening to suit latch position and functional needs
- Includes 2 faciasets: offset and centerline lock faciasets
- 1/8" horizontal and wide range of vertical adjustments possible for misaligned doors & frames
- Heavy-duty stainless steel construction
- 1500 lbs. static strength
- 70 ft-lbs. dynamic / tamper-resistant design
- 2,000,000 cycles endurance
- Meets ANSI/BHMA A156.31 Grade 1 endurance, static & dynamic strength
- UL 1034C burglary listing
- LM6400 Modular, plug-in latch monitor
- EB Entry buzzer

*Includes two plug-in voltage connectors, self-adhesive template for frame cuts, trim filler plate, mounting tabs and shims, as well as tamper-resistant screws with a security driver bit.
6300 Series
