Product selection guide
High Security LCN closers feature a vandal resistant design engineered for each application, easy installation, and superior performance. This guide is based on the desired mounting of the closer.

PRODUCT COMPARISON

This chart shows a basic comparison of LCN High Security closers. Refer to the specific closer chapter for complete details.

---

**EXTERIOR DOOR**

- Concealed in frame
  - Single lever arm
    - 2210
    - 2210 DPS*
  - Push side mounted
    - Parallel arm
      - 4210
  - Pull side mounted
    - Parallel arm
      - 4210

**INTERIOR DOOR**

- Concealed in frame
  - Single lever arm
    - 2210
    - 2210 DPS*
  - Push side mounted
    - Parallel arm
      - 4210
  - Pull side mounted
    - Parallel arm
      - 4210

* Door position switch.

- Closer available with less than 5.0 lbs. opening force on 36” door.
- ** Maximum opening with standard template. See individual closer series for degrees of opening per installation.
- *** Advanced Variable Backcheck.
Closers Series
High Security

FINISHES

Full rack and pinion hydraulic action.
Tamper resistant regulating screws.
Double heat treated
High efficiency, full complement
Forged steel
High strength cast iron cylinder.
Forged steel main arms and forearm.
One piece forged steel piston.
LCN's all weather “Liquid X” fluid performs to temperature ranges from 120°F (49°C) to -30°F (-35°C) without any seasonal adjustment.
High efficiency, full complement, low friction bearings.
Double heat treated pinions.
Tamper resistant regulating screws.
Full rack and pinion hydraulic action.
Quiet, low friction track and roller combination for all single lever arm closers.

APPLICATIONS

- For any concealed or surface mounted installation subject to potential abuse or vandalism.
- For correctional, aluminum, hollow metal, or wood doors and frames.
- Can be used with hinge or pivot mounted door.
- Adapter plates and other installation accessories available for unusual conditions.

FEATURES COMMON TO HIGH SECURITY CLOSERS

- Each closer is a vandal resistant design for a specific mounting; hinge side, parallel arm, stop face, or concealed.
- All high security closers are based on a cylinder certified to exceed 10,000,000 cycles in independent testing.
- Handed for right or left swinging doors.
- Closers to meet ADA reduced opening force requirements.
- All closers furnished with TORX tamper resistant machine screws.
- All surface mount closers include a heavy gauge steel cover with four attachment points.
- All closer adjustments are protected when installation is complete.
- All track closers use a jam resistant track and tamper resistant arm/roller assembly.
- Adjustable hydraulic backcheck cushions opening swing prior to 90°.
- Advanced variable backcheck (AVB) is available on all high security closers.
- Separate regulation of general closing speed and latching speed.

DESIGN ASSISTANCE

LCN has been providing reliable solutions to unique door control problems since 1925. Design and specification assistance are only a phone call away.
Contact LCN for assistance or technical information at 877-671-7011 or FAX 800-248-1460 (order entry). Fax 815-879-1495 for Technical Support.

WARRANTY

High Security Series closers carry a 15 year limited warranty, except for the 2210DPS Series closer that carries a 2 year limited warranty. See General Information Section for complete warranty details.

MATERIALS

- High strength cast iron cylinder.
- Forged steel main arms and forearm.
- One piece forged steel piston.
- LCN's all weather “Liquid X” fluid performs to temperature ranges from 120°F (49°C) to -30°F (-35°C) without any seasonal adjustment.
- High efficiency, full complement, low friction bearings.
- Double heat treated pinions.
- Tamper resistant regulating screws.
- Full rack and pinion hydraulic action.
- Quiet, low friction track and roller combination for all single lever arm closers.

FINISHES

- Available in six standard or a wide selection of optional custom powder coat finishes to blend with door and frame.
- LCN's powder coat finishes surpass 100 hours of salt spray which is over four times the ANSI standard for corrosion resistance.
- For installations where a higher level of corrosive resistance is required, LCN offers an optional special rust inhibiting (SRI) pre-treatment.
- Closers that combine the exclusive LCN powder coat finish and the SRI pre-treatment exceed the ANSI standard for corrosion resistance even further.
- Plated finishes are available as an option to accent door and frame.

LISTINGS & APPROVALS

UL listed for self-closing doors without hold-open under “SWINGING DOOR CLOSERS” (GVEV) file R1943.
Tested and certified under ANSI Standard A156.4. Consult factory for details.
Consult factory for other listings such as; ULC, California State Fire Marshal, Bureau of Standards and Appeals.

POSITIVE PRESSURE

LCN closers have been certified for three hours by UL to be in compliance with UL 10 C. Contact LCN for specific details on door closer fire ratings.

FASTENERS

TORX MACHINE SCREW (TORX) pack contains tamper resistant machine screws to install the closer. Thru Bolts for TORX machine screws are available for all high security closers, except 2210 series.
LCN thru bolts (TB) can be installed on 1-3/4” thick doors with the 1/4-20 TORX screws supplied with the closer. Optional sizes are available for 1-5/8” or 1-3/8” door thicknesses, but this must be specified when ordering.

Note 1: For Thru Bolts, specify door thickness if other than 1-3/4” (44mm).
Special driver bits are required for installation or removal of TORX machine screws with a security pin as supplied with LCN High Security closers. All bits fit a 1/4” hex drive socket. For 1/4-20 screws use T-27, for #12 machine screws use T-25, for #10 machine screws use T20, for #8 (and undercut #10) machine screws use T15, and for #6 machine screws use T10. The specific bits required for installation are listed on the “HOW TO ORDER” page for each closer. Sold separately.

FASTENERS

TORX MACHINE SCREW (TORX) pack contains tamper resistant machine screws to install the closer. Thru Bolts for TORX machine screws are available for all high security closers, except 2210 series.

SPECIFICATIONS

Refer to “SPECIFICATIONS” section for suggested architectural specifications.
The concealed 2210 Series, heavy duty, high security track closer features complete concealment with special components to minimize tampering and vandalism. Forged steel, single lever arm and heavy steel mounting plate are designed for correctional, vandal prone, institutional, and other high traffic applications. A choice of finishes and cylinder functions meet correctional and vandal resistant requirements.

### Certifications
Grade 1 - ANSI A156.4, UL 10C, ADA, 100 Hour Salt Spray, Meets BAA - Buy American Act

### Body Construction
- Cast Iron Body
- Full Complement Bearing
- 1-1/2˝ Diameter Piston
- 11/16˝ Diameter Double Heat Treated Pinion Journal

### Fluid
All Weather Liquid X Fluid

### Handing
Handed

### Size
Sized, interior, exterior and vestibule 3-5 (refer to chart)

### Warranty
15 years (2210); 2 years (2210DPS)

### Cover
Metal, standard

### Fasteners
TORX machine screw pack

### Mounting
- Concealed, single acting cylinder in head frame
- Concealed, arm and track in top rail of door

### Arms
Standard security arm and security track

### Finishes/Colors/
- Aluminum (689)
- Statuary Bronze (690)
- Light Bronze (691)
- Black (693)
- Dark Bronze (695)
- Brass (696)
- Custom colors optional

### Powder Coat
- Optional SRI primer - powder coat only
- Optional plated finishes

### Special Templates
Customized installation templates or products may be available to solve unusual applications. Contact LCN Product Support for assistance.
**Butt Hinges**
Should not exceed 4-1/2” (114 mm) in width

**Auxiliary Stop**
Recommended where a door cannot swing 180°

**Top Rail**
1-1/4” (32 mm) mortise required. 3/8” (10 mm) cutout required at top of door, stop face only

**Door Thickness**
1-3/4” (44 mm) minimum

**Door Width**
28” (711 mm) minimum

**Head Frame**
- 5-3/4” (146 mm) wide and 4” (102 mm) high with 2-3/16” (56 mm) rabbet required
- Consult factory if any dimension is less

**Steel Mounting Plate**
Thickness 3/8” (10 mm)

**Door Position Switch**
- Optional, newly redesigned, field adjustable switch can interface with security and monitoring systems
- Add suffix “DPS” to selected cylinder
- Provides normally open (N.O.) and normally closed (N.C.) circuit
- A three wire connector harness with 84” (2134 mm), 16 AWG leads is furnished to simplify connection to field wiring
- Single pole double throw (SPDT) contacts rated at 125/250 VAC at 10.1 amps maximum resistive load are standard

**Advanced Variable Backcheck**
- Cylinder starts backcheck at approximately 45° instead of the normal 75°
- Add suffix “AVB” to selected cylinder (eg. 2213 DPS AVB)

**Maximum Opening**
- Templating allows 180°
- Consult factory if door will be held open at 180°
- Pivot mounting door limits opening to 110° and increases minimum door width to 32” (813 mm). Consult factory
- Please note that many track style door closers are capable of allowing 180° of door swing
  *Note: Track style closers are at their weakest closing force at 180°. Consult factory for applications where door must swing 180°.

**Options**
- Advanced Variable Backcheck Cylinder
- Door Position Switch

Closer will be shipped with:
- Standard cylinder
- Finish plate
- Standard security arm
- Security track roller
- Security track
- TORX machine screw pack, unless options listed below are selected.

NOTE: Installation of this closer requires T-27, T-25 and T-15 driver bits for TORX machine screws with a security pin. Sold separately.
The 4210 SMOOTHEE® Series is a heavy duty, high security closer with special components to minimize tampering and vandalism. Forged steel parallel arms and heavy gauge metal security covers are designed for correctional, vandal prone, institutional and other high traffic applications. The closer has passed 10 million cycles in independent testing. A choice of finishes and cylinder functions meet correctional and vandal resistant requirements.

Hold-open point at maximum opening with H-CUSH arm.

**Options**
- Delayed Action or Advanced Variable Backcheck cylinder.
4210 Series

Accessories

Cylinder

4211(6)-3071 Cylinder Assembly
- Handed
- Cast iron
- Standard

Cover

4210-72MC Metal Security Cover
- Handed
- Four point mounting for extra security
- Closer adjustments not accessible with cover installed
- Standard

Arms

4210-3077EDA Extra Duty Arm
- Non-handed
- Parallel arm features solid forged steel main arm and forearm for potentially abusive installations
- Double slab arm/pinion attachment for maximum strength

4210-3077CNS Cush-N-Stop® (CUSH) Arm
- Non-handed
- Parallel arm features solid forged steel main arm and forearm with built-in stop in soffit shoe
- Double slab arm/pinion attachment for maximum strength

4210-3049CNS HCUSH Arm
- Non-handed
- Parallel arm provides hold-open function with templated stop/hold-open points
- Handle controls hold-open function with thumb turn
- HCUSH arm not available with 4216 cylinder
- Double slab arm/pinion attachment for maximum strength

Installation Accessories

4210-18, 4210-18CUSH Plate
- Required for push side mount where top rail is less than 5-1/8” (130 mm), measured from the stop
- Requires 2” (51 mm) minimum top rail measured from the stop.
- Also used with CUSH arm installations

4210-30 CUSH Shoe Support
- Provides anchorage for fifth screw used with CUSH arms where reveal is less than 3-1/16” (78mm)

4210-61 Blade Stop Spacer
- Lowers parallel arm shoe to clear 1/2” (13 mm) blade stop

4210-419 PA Flush Panel Adapter
- Provides horizontal mounting surface for EDA or CUSH shoe on single rabatted or flush frame

## Mounting details

### Stop Face (Push Side) Mounting

**4210T-18 Butt Hinges**
- Should not exceed 5” (127 mm) in width

**Auxiliary Stop**
- Recommended where the door cannot swing 110°

**Clearance**
- 2-1/4” (57 mm) from door

**Top Rail**
- Less than 5-1/4” (133 mm) measured from stop, requires PLATE 4210T-18
- Plate requires 2-1/4” (57 mm) minimum measured from the stop

**Stop Width**
- Minimum 1-3/8” (35 mm)

**Advanced Variable Backcheck**
- Cylinder starts backcheck at approximately 45° instead of the normal 75°
- Add suffix “AVB” to selected cylinder (eg. 4213T AVB)

**Maximum opening**
- Templating allows 110°

**Options**
- Advanced Variable Backcheck cylinder

Minimum door width

Indicates recommended range of door width for closer size.

Note: Minimum door width 30” (762mm).

Reduced opening force 4210T Series closers

CAUTION ! Any manual door closer, including those certified by BHMA to conform to ANSI Standard A156.4, that is selected, installed and adjusted based on ADA or other reduced opening force requirements may not provide sufficient power to reliably close and latch a door.

Refer to POWER OPERATORS section for information on systems that meet reduced opening force requirements without affecting closing power.

* Maximum opening force.

The 4510 SMOOTHEE® Series is a heavy duty, high security closer with special components to minimize tampering and vandalism. Forged steel double lever arms and heavy gauge metal security covers are designed for correctional, vandal prone, institutional and other high traffic applications. The closer has passed 10 million cycles in independent testing. A choice of finishes and cylinder functions meet correctional and vandal resistant requirements.

### Certifications
- Grade 1 - ANSI A156.4, UL 10C, ADA*, 100 Hour Salt Spray, Meets BAA - Buy American Act

*4511 cylinder meets ADA requirements

### Body Construction
- Cast Iron Body
- Full Complement Bearing
- 1-1/2” Diameter Piston
- 11/16” Diameter Double Heat Treated Pinion Journal

### Fluid
- All Weather Fluid

### Handling
- Handed

### Size
- Exterior and Vestibule, Adjustable Size 1-5
- Interior, Adjustable Size 1-5

### Warranty
- 15 years

### Cover
- Metal Security

### Fasteners
- TORX machine screw pack

### Mounting
- Hinge (Pull Side)

### Arms
- Extra heavy duty, non-hold open

### Finishes/Colors/
Powder Coat
- Aluminum (689)
- Statuary Bronze (690)
- Light Bronze (691)
- Black (693)
- Dark Bronze (695)
- Brass (696)
- Custom colors optional
- Optional SRI primer - powder coat only
- Optional plated finishes

### 4510 Series

#### Mounting details

**Hinge (Pull Side) Mounting**

<table>
<thead>
<tr>
<th>Specification</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Butt Hinges</strong></td>
<td>Should not exceed 5” (127 mm) in width</td>
</tr>
<tr>
<td><strong>Auxiliary Stop</strong></td>
<td>Recommended where a door cannot swing 140°</td>
</tr>
<tr>
<td><strong>Reveal</strong></td>
<td>Should not exceed 1/8” (3 mm)</td>
</tr>
</tbody>
</table>
| **Top Rail** | - Less than 3-1/2” (89 mm), requires PLATE 4510-18  
  - Plate requires 2” (51mm) minimum top rail |
| **Head Frame** | Less than 1” (25 mm), consult factory |
| **Clearance** | 2-1/4” (57 mm) behind door required for installation |
| **Arm Clearance** | Above door 1-1/8” (29 mm) required |
| **Delay Action** | - Add suffix “DEL” to selected cylinder.  
  - Not available with 4516 cylinder.  
  - Delays closing from maximum opening to approximately 70°.  
  - Delay time adjustable up to approximately 1 minute. |
| **Advanced Variable Backcheck** | - Cylinder starts backcheck at approximately 45° instead of the normal 75°  
  - Add suffix “AVB” to selected cylinder |
| **Maximum opening** | Can be templated for  
  140°: A = 4-3/16” (106 mm)  
  B = 9-7/8” (251 mm) |
<p>| <strong>Options</strong> | Delayed action or Advanced Variable Backcheck cylinder |</p>
