Put your trust in the name you know

For more than 90 years, Schlage has been creating the strongest and most technologically advanced security products for schools, hospitals, hotels, commercial and institutional buildings, multi-family properties and homes. From durable mechanical locks to comprehensive electronic access control solutions and biometrics, Schlage provides protection at critical moments – when property and personal security are at stake. With a wide range of products, styles and finishes, Schlage has products for the most demanding project specifications. In public buildings, in the workplace, and in homes, at the end of the day Schlage stands for one thing: strong.

H Series

Tough, dependable multi-family safety and security

Multi-family applications demand tough hardware that also provides quick, easy egress for guests or residents. Our H Series is also well suited for small hotels and military housing, a choice of cylinders, and styles and finishes that fit your building’s design.

We don’t compromise on security

The safety and security of your clients’ buildings is something we take very seriously. That’s why every Schlage lock and deadbolt undergoes intensive testing:

- Cycle tests
- Door impact tests
- Bolt strength tests
- Resistance tests
- Warped door tests

We pay attention to these details so you can focus on creating a functional and aesthetically pleasing environment for your clients.

Pictured here: Plymouth interconnected lock shown in 626 satin chrome
Real security is knowing exactly what you want and getting it

When you know exactly what you want, you don’t want to waste time finding out whether it meets your project specifications. That’s why we offer the world’s largest team of hardware specification writers to help you and your clients turn your vision into reality. And when it comes to products, our commercial suiting options, wide variety of lever designs and rich selection of finishes give you the tools you need to make your projects perfect. You know what you want. With Schlage, you can be sure you’ll get it.

Safety, security and confidence

When you choose a Schlage lock, you can be sure you’ve done the job right, the first time. After all, our products are among the most durable and dependable on the market today. Our locks are easy to install, and simple to repair and maintain. That means fewer callbacks for you, and total safety and security for your customers.
H Series

In condominiums, apartments and small hotel/motel applications, the H Series interconnected lock delivers lasting performance, easy installation and a choice of finishes to fit the building’s design.

Pictured here: Orbit interconnected lock shown in 626 satin chrome
A tough, dependable lock

- Heat-treated steel locking components for extra strength
- Independent heavy-duty lever torsion springs for durability and long life
- Non-handed levers for easy field installation
- Extra-strong Everest 29™ patented keys standard for commercial applications
H Series knob and lever designs

**Orbit (ORB)**

Symbol: ORB  
Material: Wrought brass or bronze  
Full size interchangeable core option available in H110, H153 and H180 functions.

**Levon (LEV)**

Symbol: LEV  
Available inside only on H153, H180 and H185 functions only.  
Material: Pressure cast zinc

**Plymouth (PLY)**

Symbol: PLY  
Material: Wrought brass or bronze  
Full size interchangeable core option available in H110 function only.

**Meteor outside escutcheon**

Symbol:  
Order separately  
Material: Wrought brass or bronze

All designs shown in 626 satin chrome.

- Standard cylinder.
- FSIC - full size interchangeable core option for Orbit design.
- Complies with ADA accessibility guidelines.

Door handing

All Schlage locks are reversible. Hand information is necessary to ensure proper cylinder orientation in keyed functions, and finish of latchbolt and strike for locks that are to be installed on reverse bevel doors. Follow the diagram to correctly determine the hand of the door.

ADA-compliant products

In compliance with the American National Standards Institute (ANSI A117.1) and the Americans with Disabilities Act (ADA), Schlage Lock Company offers a wide selection of locks designed for the needs of the physically challenged. This act is designed to provide protection for people with disabilities.

The intent of ADA is that owners of certain types of buildings must remove barriers and provide people with disabilities with access equal to, or similar to, that available to the general public.

Product information and specifications contained in this catalog are subject to change without notice. Please consult the factory.

Keyed functions

Schlage ANSI

H110 F95
Entrance, single locking
  • Deadbolt thrown or retracted by key in upper cylinder from the outside or thumbturn inside.
  • Latchbolt retracted by knob from either side.
  • Turn inside knob or lever to simultaneously retract latchbolt and deadbolt for immediate exit.

Schlage ANSI

H153 F97
Entrance, double locking
  • Deadbolt thrown or retracted by key in upper cylinder from outside or thumbturn inside.
  • Deadlatch is retracted by key in outside knob or by pushing turn-button in inside knob or lever.
  • Outside knob may be fixed in locked position by rotating turn-button.
  • Turn inside knob or lever to simultaneously retract deadbolt and deadlatch for immediate exit.

Schlage ANSI

H180
Storeroom lock
  • Deadbolt operated by key from outside or thumbturn inside.
  • Bolt automatically deadlocks when fully thrown.
  • Deadlatch retracted by key from outside.
  • Inside knob simultaneously retracts both latch and deadbolt for immediate exit.
  • Outside knob is always locked.

Schlage ANSI

H185 F100
Hotel/motel lock
  • Deadbolt thrown or retracted by emergency master key in upper cylinder from outside or thumbturn inside.
  • Deadlatch retracted by key in outside knob, except when the lock is in “shut-out” mode, by pushing button on inside knob or lever.
  • Pushing button on inside knob or lever activates visual occupancy indicator.
  • Only emergency master key operates outside knob when lock is in shut-out mode.
  • Turn inside knob or lever to release shut-out mode and simultaneously retract deadbolt and latchbolt for immediate exit.
Cylinders and key systems

Protect new key systems with Everest 29
Schlage can help you design a system that can grow and change along with your needs, allowing you the flexibility to upgrade your security without the need to replace all your cylinders.

What it is
- Controlled access
  - Patented key control sold with various levels of geographic exclusivity
  - High security cylinders have a second set of pins for added security
  - Keys operate high security, as well as restricted security or standard security cylinders
  - Available only in conventional

What it operates
- Everest 29 Primus® XP cylinders
- Everest 29 restricted cylinders
- Everest 29 open cylinders

Upgrade existing classic key systems with Primus XP
Schlage offers key system solutions that are ideal for upgrading an existing key system to control key management. Our patent-protected cylinders help prevent unauthorized duplication and can be integrated into virtually any existing system.

What it is
- UL 437 version
  - UL 437 versions provide drill and pick resistance and withstand physical attack
  - High security cylinders have a second set of pins for added security
  - Keys operate high security, as well as restricted security or standard security cylinders
  - Available only in conventional

What it operates
- Primus XP cylinders
- Classic cylinders

Standard security

Schlage can help you design a system that can grow and change along with your needs, allowing you the flexibility to upgrade your security without the need to replace all your cylinders.
Primus XP access control and high security cylinders

Primus XP access control and high security cylinders are available to add patented key control and varying degrees of geographical exclusivity to most Schlage 6-pin key systems, whether Everest 29 or Classic keyways.

In addition to a conventional pin tumbler mechanism, Primus cylinders incorporate a patented finger pin and sidebar design, providing a “dual-locking” cylinder that is virtually pick-proof. Resistance to drilling and other physical attack is optional by specifying 20-500 Series UL437 Listed cylinders.

Classic Primus XP cylinders are recommended for upgrading existing Classic key systems. Due to its extended patent life, the newly designed Everest 29 Primus XP is recommended for new key systems and for upgrading existing Everest key systems. Specify keyway to differentiate between Everest 29 and Classic. Example: C or CP (Classic) vs. S123 (Everest 29).

Visit allegion.com/us for more information.
**Full size interchangeable core**

Schlage interchangeable core (IC) locksets allow immediate rekeying at the door simply by using the special control key to replace the core in seconds.

Only the Orbit knob is available with IC. Full size interchangeable cores can be integrated into any 5 or 6-pin Schlage key with no adverse affects on keying capacity.

To order complete locks with full size cores, add suffix R. Example: H153R. To order locks less core, change suffix to J. To order with full size construction core, change suffix to T.

---

**Orbit**

Symbol: ORB  
Material: Wrought brass or bronze  
Finishes: 605, 606, 609, 612, 613, 625, 626

Design shown in 626 satin chrome
Cores, IC cylinders and parts

**Full size interchangeable cores - options**

- Conventional core
- Primus XP high security core

Available in 606 and 626 finish only. Everest 29 S123 keyway standard for commercial; C keyway standard for residential.

**IC cylinders for deadbolt (top) - options**

Tailpiece not included.

- Housing less core
- Housing with conventional core
- Housing with Primus core

Available in 605, 606, 609, 610, 611, 612, 613, 616, 625, 626. Everest 29 S123 keyway standard for commercial; C keyway standard for residential.

**IC installation tool**

This tool is used to install the driver and retainer for full size IC in Schlage knobs and levers. Its other ends are designed to install and remove mortise cylinder housings and test mortise cylinder cam action for both small format and full size interchangeable core cylinders.
Latches and deadbolts

H Series latches and deadbolts can be ordered in combinations, separately or with locks. When ordering separately, specify quantity, product number, and finish. Standard deadbolt/latchbolt combinations, per backset, are shown in bold type.

Specifications

Handing:
Field reversible.

Door thickness:
$1\frac{1}{4}''$ to $1\frac{3}{4}''$ (35 mm - 44 mm).

Backset:
$2\frac{3}{8}''$ (60 mm) standard, $2\frac{3}{4}''$ (70 mm) and $5''$ (127 mm) optional.

Fronts:
Brass or bronze. $1\frac{1}{8}''$ x $2\frac{3}{4}''$ (29 mm x 57 mm) square corner, beveled, for $2\frac{3}{4}''$ (70 mm) backset standard. For availability with specific backsets, see page 18.

Lock chassis:
Steel, zinc dichromate plated for corrosion resistance.

Deadbolt:
1" (25 mm) throw with hardened steel roller, and 1" (25 mm) housings standard.

Latch bolt:
Brass, chrome plated, $\frac{1}{2}''$ (13 mm) throw, deadlocking.

Exposed trim:
Knobs, roses, escutcheons, latch faceplates and strikes are wrought brass or bronze. Levers are zinc base, plated to match finish symbols.

Strike:
T-strike $1\frac{1}{8}''$ x $2\frac{3}{4}''$ x $1\frac{1}{2}''$ (29 mm x 70 mm x 29 mm) lip to center with box standard. Optional strikes, lip lengths and ANSI strike box available. See page 19.

Cylinder and keys:
Commercial: 6-pin patented Everest 29 S123 keyway standard with two nickel silver keys per lock.
Residential: 6-pin C keyway, keyed 5-pin.

Keying options:
Interchangeable core and Primus® high security cylinders. Master keying, grand master keying, and construction keying.

Warranty:
Commercial: Three-year limited.

Certifications

Federal:
Meets FF-H-106C.

UL / cUL:
All locks listed for A label single doors, 4' x 8'. Letter F and UL symbol on latch front indicate listing.

UL437 Listed locking cylinder optional:
Specify Primus 20-500 Series cylinder.
