---

**Hospital corridor**

**Description**
Senior Swing Sequential Pair with Strike and Auto Flush Bolts

**Common application**
Allows a pair of doors to be locked to divide key sections of a hospital

**Wiring diagram**
SR-SQ-FB_A

---

**Off hour security**

**Description**
Senior Swing with EL and Card Reader or Key-switch

**Common application**
Allows ADA compliance at all times but turns off the outside actuator during building off hours so the operator does not try to open the door while it is locked

**Wiring diagram**
SR-EL-CR2

---

**Secure access**

**Description**
Senior Swing with EL, Magnet and Card Reader

**Common application**
Allows building owners to control access to authorized people only

**Wiring diagram**
SR-DE-EL-MAG2

---

**Senior access**

**Description**
Senior Swing with 8310-3891/8310-3892 Sensor Package

**Common application**
Provides extra safety for people located near the opening of the door in hospital or senior living applications

**Wiring diagram**
SR-3891, SR-3892
