Overview

The most complex electronic access systems still rely on mechanical hardware to operate properly. Advanced electronic technology can go to waste without adequate mechanical locking strength and functionality.

The Schlage L Series of electrified mortise locks serves as the mechanical component to an electrified locking solution. The lock can be integrated into an electronic access control system or be used as a stand-alone solution with a buzzer or other device as the controller.

The L Series offers exceptional flexibility and power savings. The lock automatically adapts to 12V or 24V DC input, and a case-mounted switch allows selection between EL and EU operation. Request-to-exit is modular and can be added without opening the lock case. 0.4amps maximum current draw allows multiple units on a single power supply, while 0.01amps holding current eliminates “hot levers” in EL applications.

Utilizing the same levers, trims and options as the mechanical Schlage L Series mortise, it integrates as seamlessly with the mechanical component of the project as the electronic. And because it is based on the Schlage L mortise, it carries the same proven record of performance, strength and durability from the most trusted name in the industry.

Recommended applications

The wired electrified L Series is ideal for new construction and high traffic areas where hardwired power ensures continuous operation and where electrified door prep, hinges and wiring can easily be incorporated into the building.

The electrified L Series is regularly used as part of an access control system for high security areas, or independently in areas that require a remote access switch.

Features and benefits

- Universal input voltage – accepts 12V or 24V DC for installation flexibility
- User selectable fail safe/fail secure through use of switch on lock case
- Low maximum current draw allows multiple locks on a single power supply
- Low holding current produces minimal heat, eliminating “hot levers” in electrically locking applications
- Modular RX design allows RX to be added at a later time without opening the lock case
- UL listed for 3 hour fire door
- NEW! Available with Vandgardi®. Ideal for areas subject to abuse or vandalism

Available Options:

- Request-to-Exit (RX)
- Latchbolt Monitor (LX)
- Door Position Sensor (DPS) - non-deadbolt functions only
- Deadbolt Monitor (DM) - deadbolt functions only
### L Series mechanical specifications

<table>
<thead>
<tr>
<th>Feature</th>
<th>Specification</th>

</table>
| **Armored front** | Standard: 1 1/4" x 8" x 1/2" (32 mm x 203 mm x 6 mm)  
Optional: 1/4" x 8" x 1/2" (27 mm x 203 mm x 6 mm) |
| **Case size**    | 4 7/16" x 6 1/8" x 1" (113 mm x 154 mm x 25 mm) |
| **Spacing**      | Knob or lever to cylinder, 3 7/8" (98 mm);  
knob or lever to thumbturn hub, 2 11/16" (68 mm) |
| **Bolts**        | 1" (25 mm) throw stainless steel deadbolt and  
1/4" (19 mm) throw stainless steel latch with anti-friction tongue |
| **Cylinders and key systems** |  
Standard: Pin and tumbler mechanism in the  
Patented Schlage Everest 29 S123 keyway (6-pin); two nickel silver cut keys per lock  
Additional keying options available:  
Conventional and interchangeable cores; master  
and grand master keying; compatible  
with competitor cylinders and cams that support the  
L9000 Series |
| **Strike**       | ANSI curved lip strike 1 1/4" x 4 3/4" (32 mm x 124 mm)  
x 1 1/4" (30 mm) lip to center with dust box standard |
| **Trim**         | Five roses (sectional) and three  
escutcheons available |
| **Levers**       | 33 lever and two knob designs  
Ligature resistant and hospital push/pull trim also available |
| **Finishes**     | 14 available                                    |

### L Series electronic specifications

- **Voltage**: Auto-detects 12/24V DC operation
- **Peak current**: 0.4 amps
- **Holding current**: 0.010 amps
- **Operating temperature**: Maximum +140°F (+60°C);  
Minimum -22°F (-30°C)
- **Interfacing devices**: Biometric devices, wall switches, security consoles, access card readers, thermo-sensitive devices, smoke and fire alarms, telephone access controls, automatic time devices and computerized controls
- **Micro switch electrical rating for request-to-exit (RX) function and latchbolt monitor (LX)**: 3 amps, 125V AC; 2 amps, 30V DC

### L Series electrified functions

**No Cylinder**
- L9090EL/EU Electrically locking/unlocking outside lever
- L9091EL/EU Electrically locking/unlocking both levers

**Outside Cylinder**
- L9092EL/EU (Replaces L9080EL/EU) Electrically locking/unlocking outside lever
- L9093EL/EU Electrically locking/unlocking both levers

**Inside & Outside Cylinder**
- L9094EL/EU Electrically locking/unlocking outside lever
- L9095EL/EU (Replaces L9082EL/EU) Electrically locking/unlocking both levers

### L Series electrified deadbolt functions

**Outside Cylinder**
- L9492EL/EU Electrically locking/unlocking outside lever
- L9493EL/EU Electrically locking/unlocking both levers

**Inside & Outside Cylinder**
- L9494EL/EU Electrically locking/unlocking outside lever
- L9495EL/EU Electrically locking/unlocking both levers

Note: See pricebook for additional details.
