Overview

MultiPoint Lock Security is an integrated door, frame, and three-point lock solution specifically designed for high security applications where a single latch or latch and deadbolt are insufficient. MultiPoint Lock Security is a three-point locking system that secures the door at three locations – the top, bottom, and center latch points.

Features and benefits

- **Six available functions supporting a wide range of applications**
  - Passage, exit, storeroom, classroom, classroom security, and office/inner entry
  - VandlGard® available for additional protection from forced entry
- **Compatible with all Schlage Mortise lock key systems**
  - Standard, FSIC and SFIC key systems available
  - Patented key systems, including Everest 29™ with patented keyway through 2029
- **Compatible with all Schlage L Series Mortise trims and finishes**
  - 31 lever designs allow complete suiting with Schlage L Mortise and LT Tubular locks along with Von Duprin exit devices.
  - Sectional (rose) or escutcheon trim
  - 13 different finishes
- **Seamless operation**
  - Handle rotation retracts all three latches; closing door re-engages all latches
- **Simple installation**
  - Vertical rods pre-assembled and factory aligned in door
  - Mortise lock can be installed/removed with door installed
- **Multiple door designs available** (compatible with B Series steel stiffened or L Series doors with a variety of cores for enhanced strength or thermal performance)
  - 2' 6" x 6' 8" minimum to 4' 0" x 8' 0" maximum single door (inswinging and outswing)
  - 5' 0" x 6' 8" minimum to 8' 0" x 8' 0" maximum pair doors (inswinging and outswing)
- **Certifications**
  - UL10C 3 hour fire rating available
