1. Prepare door for exit device. See exit device instructions for holes, line X, and center lines.

2. Prepare door for trim:
   A. Transfer line X from inside (exit device side) of door to outside (trim side) of door. Use extra care if edge of door is beveled.
   B. Locate and prepare all holes as shown.

3. For NL trim with 98/99 Rim, 98/9927, or 98/9947 exit device:
   A. Install cylinder (Figure 1).
   B. Cut cylinder tailpiece to extend 7/16" to 9/16" out of exit device side of door.
   C. Install tailpiece guide in exit device cam (Figure 2).

4. Apply trim.

5. Apply exit device or 330/350 Push Bar.
