DIRECTIONS FOR CUTTING VERTICAL RODS ON 88 DEVICES

1. CHECK RODS FOR CORRECT LENGTH. (Figure 1A)
   a. If too long, cut off at unthreaded end.
   b. When rod extension is required, cut off main rod so extension is at least 3" long. (Figure 1B)

2. DRIVE IN ROD CONNECTORS.
   a. Lubricate for easier driving. (Figures 1B & 2)
