

INSTALLATION INSTRUCTIONS

1. Remove end cap and dogging cover plate assembly.
2. For CD33/35 devices:
 - A. Remove mortise cylinder cam and reinstall in reverse (Figure 1).
 - B. Insert key and rotate cam to install the cylinder to the cover plate (Figure 2).
 - C. Remove key to slide cover plate in position in the mechanism case.
3. For SS33/35 devices:
 - A. Leave mortise cylinder cam in standard position (do not reverse) (Figure 1).
 - B. Install the cylinder to the cover plate (Figure 2).
4. Reassemble dogging cover plate and cylinder assembly into mechanism case.
5. Install end cap.
