VON DUPRIN.

INSTALLATION DIRECTIONS

BEFORE APPLYING THIS DEVICE

A. This model must be installed.
B. Door must be flush and true.
C. Check that handling of hardware corresponds with handing of door to be used. See Fig. 3.

1. APPLY STRIKE

A. Use drop-in anchor strike template No. 3 or No. 4 depending on handing of door to be used.
B. When Von Duprin Strike is used apply strike at top of door. See Installation 1.

2. PREPARE DOOR

A. Take full size template No. 1 or 2, depending on handing of door, to inside face of both sides. Be sure centerline of door is 39 1/32" from finished floor.
B. Be sure centerline of lock style case is parallel to stop and that edge of case is 3 3/4" from edge of strike. Strike must be driven out if lock case is mounted more than 3 3/4" from strike.
C. Prepare door as shown. See Fig. 1 for wood door application, and Fig. 2 for metal door application.

3. APPLY OUTSIDE TRIM

A. See directions in trim carpenter's line 9.6.6. on trim template corresponds to line 9.6.6. on template lipstick, and put in edge of door. Transfer line "A" from template to edge of door.
B. Prepare door as shown.
C. If necessary, cut off trim stock to 39 1/32" and cylinder trim packages to exceed 1/32" to 3/16" thru door and into device case.
D. Apply outside trim.

4. INSTALL LEVER ARMS

A. Insert lever arms into lock case and hinge style case.
B. Assemble case and tighten securely. (See instructions in case envelope.)

5. APPLY LOCK STYLE CASE

A. Remove case from cylinder.
B. Position cylinder as shown in Fig. 3.
C. Attach lock style case to door. (See Fig. 3 for Lock Style Case Installations.)
D. Test key and lock action.

6. APPLY HINGE STYLE CASE AND CROSSBAR TUBE (Fig. 4)

A. See instructions for lock case and hinge style case. (See instructions for lock case and hinge style case.)
B. Be sure centerline of lock case is parallel to edge of door and superimposed on centerline of template case.
C. Use holes in hinge style case, mark location and prepare door for attaching hinge style case.
D. Apply hinge style case with crossbar in place.
E. Tighten nuts securely and center with top and crossbar to avoid leverage, and test for free action. (See instructions for lock case and hinge style case.)

FOR TRIM APPLICATION SEE DIRECTIONS IN TRIM CARTON
