Attention:

This document contains the Release Notes for BE467/FE410 Firmware Release 03.04.01 and includes feature updates made since the previous BE467/FE410 production Firmware Release 03.03.01 on April 7, 2017.

Installation and Update Notes:

Installation:

Device firmware updates are made available through the ENGAGE™ cloud database.

The site administrator can update the firmware on one BE467/FE410 unit at a time using the ENGAGE™ Mobile Application.

Additional firmware update information can be found in the Knowledge Center information portal by searching for the “How do I perform BE467 Firmware Updates” solution.

Firmware versions that will be installed with these updates:

- 03.04.01 with ENGAGE 5.2
  - Main Application : 03.04.01
  - Bluetooth Module: 01.4.0-127

NOTE: The BOLD “Main application” is updated from the previous release.
**Who should update?**

Allegion recommends keeping all devices up to date with the latest firmware and software. We strive to provide the best products and service for our customers.

Our latest firmware and software releases will allow the customer to get the most from their devices.

Specifically, all customers who would be interested in the following Recent Changes should update:

**Recent Changes:**

- The motor control algorithm is changed to improve robustness.
- The activation date day is now reported correctly after commissioning.
- DST settings are now saved and correctly reported after commissioning.
