Attention:

This document contains the Release Notes for CTE device firmware version 01.03.01. This version includes feature updates and improvements made after the CTE product firmware 1.02.08 released in January of 2018.

Installation and Update Notes:

Device firmware updates are available 8/01/2018 through the ENGAGE™ cloud database.

Starting 8/01/2018, from the ENGAGE web portal, each lock may be independently selected by the site administrator to have the latest firmware downloaded during the next scheduled Wi-Fi connection. Alternatively, the site administrator may connect locally to individual locks with the ENGAGE mobile application to update a CTE with the latest firmware.

The Knowledge Center information portal provides additional information: Search for the “How do I perform CTE Firmware Updates” solution for more details.
