**Attention:**

This document contains the **Release Notes** for Schlage Control™ Mobile Enabled Smart Lock devices (BE467/FE410) firmware version **04.05.19**. This version includes feature updates and improvements made after the Schlage Control product firmware **04.05.11** released in June of 2019.

**Installation and Update Notes:**

**Installation:**

Device firmware updates are made available through the ENGAGE™ cloud database. The site administrator can update the firmware on one BE467/FE410 unit at a time using the ENGAGE™ Mobile Application.

Additional firmware update information can be found in the Knowledge Center information portal by searching for the “How do I perform BE467 Firmware Updates” solution.

**Firmware versions applicable with Schlage Control™ Mobile Enabled Smart Lock:**

- Control firmware  **04.05.19**
- Bluetooth module  **02.11.01-241**

**Other system components versions to be used with this release: (or newer)**

- Gateway  1.56.02
- Android Application  4.3.13
- iOS application  3.2.6
- MT20W  39.03.00
Who should update?

Allegion recommends keeping all devices at your property up to date with the latest firmware and software. We strive to provide the best products and service for our customers.

Our latest firmware and software releases will allow the customer to get the most from their devices.

Specifically, all customers who would be interested in the following New Features and Recent Changes should update all the devices and mobile devices used at their property:

**New Features:**

- Audits for Reader False Detect count and Periodic Battery Sampling Voltage reporting (24 hours).

**Recent Changes:**

- Once an FDR is triggered on the Control Lock, the FDR process will complete without any user action even if a reboot or power reset occurs in between.
- Improvement in handling the Bluetooth communication performance under maximum Bluetooth Connections and high Communication load conditions.
- Improvement in the handling of the Partial Database transfer to lock

**Notes:**

- Control Mobile enabled Lock with the firmware version 04.04.00 must be updated with the Firmware version 04.05.04 in Engage Pilot Site and then it should be upgraded to 04.05.19.

- Control Mobile enabled Lock with the firmware version 04.02.62 (pre-production samples) must be updated with the Firmware version 04.05.04 in Engage Pilot Site using the following steps:
  
  - Step 1: Update the Lock with firmware ver. 04.02.62 to ver. 04.03.00 via OTA
  - Step 2: Update the Lock with firmware ver. 04.03.00 to ver. 04.04.00 via OTA
  - Step 3: Update the Lock with firmware ver. 04.04.00 to ver. 04.05.04 via OTA
  - Step 4: Update the Lock with firmware ver. 04.05.04 to ver. 04.05.19 via OTA

- Control Mobile enabled Lock should not be downgraded below version 04.05.04
