

Product Release Information: LEB Firmware 03.09.09

Product	LEB
Version Number	03.09.09
Firmware Release Date	October 2021
Customer Support	For more information or support, visit the ENGAGE website.

Attention:

This document contains the **Release Notes** for LEB device firmware version **03.09.09**. This version includes feature updates and improvements made after the LEB firmware 03.08.06 released in May of 2021.

Installation and Update Notes:

Device firmware updates are available October 2021 through the ENGAGE™ cloud database.

From the ENGAGE web portal, each lock may be independently selected by the site administrator to have the latest firmware downloaded during the next scheduled Wi-Fi connection. Alternatively, the site administrator may connect locally to individual locks with the ENGAGE mobile application to update an LEB with the latest firmware.

Firmware versions that will be installed with this update:

- **Main Application** **03.08.06**
- Reader Application 02.09.00
- **BLE Application** **02.13.06.327,01.10.03,01-1.7.0**
- Wi-Fi Application: 02.10.0.0

NOTE: The **BOLD** item(s) are updated from the previous release

Other system components versions to be used with this release: (or newer)

- Gateway **01.61.02**
- MT20W 40.04.00
- Android Application **4.6.167**
- iOS application **3.7.0**
- ENGAGE **8.0.0**

Who should update?

Allegion suggests that customers utilize the latest firmware release to take advantage of the latest functionality, bug fixes, and security enhancements. We strive to provide the best products and service for our customers.

Specifically, any customer interested in any of the following New Features and Recent Changes should update their LEB lock firmware to version 03.09.09.

New Features:

- Support added for new Credentials ahead of new NDEB Si and LEB Si launch
 - New Credential Technologies available to be selected:
 - Secure HID iClass, SE, and SEOS
 - HID Mobile Credentials
 - Note: Proximity selection will not be available while these are selected
 - Requires ENGAGE Mobile App to be updated to latest version

NOTE: These features are only available on the NDEB Si and LEB Si.

- Support Added for Android HCE Credential
 - Support has been added ahead of the Android HCE Credential to facilitate use when the credential becomes available

Recent Changes:

- Lock will no longer record a “Momentary Unlock” audit when a manual override command of Momentary Unlock is sent while the lock is in “Passage” state
- Fixed an issue where locks that went offline behaved as if they were unprogrammed
- Fixed an issue where users were granted access in 410RSI cache mode when max cache entries config was set to 0
- Fixed an issue to prevent the lock from being commissioned in construction mode
- Fixed for various import issues when working with Third-party Partners
