Attention:

This document contains the Release Notes for LE firmware version 01.06.65. The version includes feature updates and improvements made after the last LE product firmware 1.06.63 released in November of 2017.

Installation and Update Notes:

Device firmware updates are made available through the ENGAGE™ database.

From the ENGAGE web portal, each lock may be independently selected by the site administrator to have the latest firmware downloaded during the next scheduled Wi-Fi call. Alternatively, the site administrator may connect locally to individual locks with the ENGAGE mobile application to update an LE with the latest firmware.

Firmware versions that will be installed with this update:

- **Main Application**: 01.06.65
- **Reader Application**: 02.04.00
- **BLE Application**: 02.04.02.2500,00.00.00.01-.2.1
- **Wi-Fi Application**: 02.10.0.0

NOTE: The **BOLD** item(s) are updated from the previous release

Other system components versions to be used with this release: (or newer)

- **Gateway**: 01.52.20
- **MT20W**: 38.02.00
- **Android Application**: 03.00.85
- **iOS application**: 02.00.77
- **ENGAGE**: 6.05

Who should update?

Allegion recommends keeping all devices at your site up to date with the latest firmware and software. We strive to provide the best products and service for our customers.

Our latest firmware and software releases will allow the customer to get the most from their devices.

Specifically, all customers who would be interested in the following Recent Changes and New Features should update all the devices and mobile devices used at their site:

**New Features:**

- Additional Reader Performance Audits are now generated when the Lock receives the “Run Diagnostics” command from the mobile app.

**Recent Changes:**

- Reader Performance Enhancements

**NOTE:** LE devices manufactured after December 2017 are not backwards compatible with firmware versions older than 06.06.063.
