

Product Release Information: NDEB Firmware 03.08.06

Product	NDEB
Version Number	03.08.06
Firmware Release Date	May 2021
Customer Support	For more information or support, visit the ENGAGE website.

Attention:

This document contains the **Release Notes** for NDEB device firmware version **03.08.06**. This version includes feature updates and improvements made after the NDEB firmware 03.07.01 released in November of 2020.

Installation and Update Notes:

Device firmware updates are available May 2021 through the ENGAGE™ cloud database.

From the ENGAGE web portal, each lock may be independently selected by the site administrator to have the latest firmware downloaded during the next scheduled Wi-Fi connection. Alternatively, the site administrator may connect locally to individual locks with the ENGAGE mobile application to update an NDEB with the latest firmware.

Firmware versions that will be installed with this update:

- **Main Application** **03.08.06**
- Reader Application 02.09.00
- **BLE Application** **02.13.06.327,01.10.03,01-1.7.0**
- Wi-Fi Application: 02.10.0.0

NOTE: The **BOLD** item(s) are updated from the previous release

Other system components versions to be used with this release: (or newer)

- Gateway **01.60.08**
- MT20W **40.04.00**
- Android Application **4.6.30**
- iOS application **3.3.142**
- ENGAGE **7.6.0**

Who should update?

Allegion suggests that customers utilize the latest firmware release to take advantage of the latest functionality, bug fixes, and security enhancements. We strive to provide the best products and service for our customers.

Specifically, any customer interested in any of the following Recent Changes should update their NDEB lock firmware to version 03.08.06.

New Features:

- No-Tour Support for BLE Mobile Credentials
 - Support added for No-Tour Enrollment of Schlage Mobile Credentials using the latest Schlage Mobile Access application
- 210 Mode WiFi Alert for pressing the Inside Push Button
 - A new Alert will be sent when the Inside Push Button is used

Recent Changes:

- Improved the robustness of Audit retrieval
- Improved the robustness of BLE connections to reduce the number of disconnects
- Fixed an issue where names over 28 characters would be accepted during commissioning
- Fixed an issue where an “Unknown Data Error” audit would be generated during configuration updates
- General Security Updates
