(F)19-V Surface Vertical Rod Device with FSA or FSE Feature

Metal Door, LHR Shown, RHR Opposite

For applications over 8 feet (2.4 m), install two rod guides equally spaced on top rod.

For fire rated Less Bottom Rod (LBR) application, refer to template T-5494 for auxiliary fire latch and omit bottom latch preparation.

For outside trim, see trim template for door preparation.

For sexbolt preparation, refer to Template T-4014.

See Master Sheet #0100 for suggested reinforcing.

• Drill ¾" (4 mm) dia. hole for sheet metal screws, or drill and tap #10-24 for machine screws (10 holes).

• Fire rated devices must use machine screws.

For applications over 8 feet (2.4 m), install two rod guides equally spaced on top rod.

For fire rated Less Bottom Rod (LBR) application, refer to template T-5494 for auxiliary fire latch and omit bottom latch preparation.

For outside trim, see trim template for door preparation.

For sexbolt preparation, refer to Template T-4014.
