Upgrading to meet FIPS 201-1 compliance can be challenging from the standpoint of time and money. The AD-401 is the only integrated wireless electronic lock that is designed for applications which require approval from the U.S. Federal Government under HSPD-12 for FIPS 201-1 compliance.

The AD-401 wireless lock with FIPS 201-1 compliant reader makes it easy to upgrade existing facilities with minimal disruption by eliminating the need to run wires to each opening. AD Series wireless locks are typically installed in less than two hours at the door.

**Featured products**

1. Schlage AD-401 wireless locks with FIPS 201-1 compliant reader
