This diagram represents a generic configuration. Custom Wiring Diagrams can be acquired by contacting Technical Support.

**Note:** Use #12 gauge wire for distances up to 200' from EPT to PS914. Use #14 gauge wire for distances up to 100' from EPT to PS914. Additional wiring is required. See manufacturer installation instructions for details.

**SET 900-4RL CARD:**
- SW2 PACK-SW1 OFF and SW2 ON.
- SW1 PACK-SW1 ON, SW2 OFF, SW3 AND SW4 OFF and other switches as required for installation. See 900-4RL installation instructions for details.
- Set NO2 card and NO4 for dry contact.
- Set all other switches as required for installation.

**PROGRAM C2 AND NO2 FOR DRY CONTACT.**

**OPERATION:**
- **PULL SIDE ACTUATOR** to retract the electric panic bar and open the door.
- **PULL SIDE SCHLAGE OR CARD READER** to retract the electric panic bar and enable the pull side actuator to open the door.

This configuration represents a non-fire rated opening. In this example, all wiring connections are made in the PS914 enclosure.
