This diagram represents a generic configuration. Custom wiring diagrams can be acquired by contacting technical support.

NOTES:
1. Consult access control panel and card reader provider to determine conductor count and wire size.

NOTED:
- All low voltage wiring to be standard, multi-conductor color coded without splices.
- Wiring to conform to applicable national, state and local electrical codes.
- Refer to specific product installation instructions for specific wiring requirements.
- This drawing is for graphical representation of products offered in the hardware set only.
- Additional wiring will be required from ACP that is not shown here. Consult provider for details.
