

ENGAGE™

Mobile App for Device Commissioning

Overview

The ENGAGE™ mobile app is used to commission and connect devices to industry leading physical access control software (PACS) or multifamily proptech systems.

The app includes support for Schlage Control®, NDE, LE, MTB, CTE, RC, GWE, TKE and Von Duprin RU and RM. Please visit us.allegion.com/alliances for specific support and capabilities by provider.

The ENGAGE mobile app is required to initialize Schlage and Von Duprin devices that are on ENGAGE Platform. The mobile app is free and available for Apple and Android smart devices.

Features & Benefits

- Immediately add, configure or update locks via mobile app wirelessly using Bluetooth® enabled smart phone or tablet at the door
- Can be used for other tasks including device firmware updates, hardware diagnostics and device audits
- Works with latest models of Apple and Android phones
- Intuitive user interface simplifies the commissioning process

* Discontinued but still supported.
